Re: Obsolescence of PFE1000F-XX

Dear Valued Customer / Partner,

TDK-Lambda has received EOL notices for key semiconductors and control ICs used in our PFE1000F-XX power modules, despite negotiations with these suppliers to provide alternative sources of supply.

We have used this as an opportunity to improve the performance of the PFE1000F-XX series, including efficiency, and the new PFE1000FA-XX replacements are drop in replacements.

A listing of the affected models and their replacements can be found below:

Model	Replacement
PFE1000F-12	PFE1000FA-12
PFE1000F-12/T	PFE1000FA-12/T
PFE1000F-28	PFE1000FA-28
PFE1000F-28/T	PFE1000FA-28/T
PFE1000F-48	PFE1000FA-48
PFE1000F-48/T	PFE1000FA-48/T

TDK-Lambda recognizes that as a past or current customer of these products, you may require additional units until substitution testing is complete or for service spares. We are offering a last time buy opportunity until March 1st, 2017, with a last time ship date of September 1st, 2017. Please understand that these orders would be non-cancelable and non-returnable.

Please contact our technical support for additional information. 1-800-526-2324 or email [lambda.techsupport@us.tdk-lambda.com](mailto:lambda.techsupport@us.tdk-lambda.com)
