Notice of Change – Flash Memory Connectors

Valued Distribution Partners,

We would like to inform you of a change that impacts our Flash Memory connector products. In an effort to mitigate the risk of tin whisker growth, all applicable part numbers will change from bright tin to matte tin plating. We feel this is positive change that will improve our product and benefit all of our customers.

Part numbers impacted by this notice are:

10100XXXXXX
11400XXXXX

This change will be implemented into production by Jan 1, 2012. If you have any questions or concerns, please do not hesitate to contact your local Amphenol representative, or me directly.

Regards,

Ron Anderson
Product Manager
Amphenol Canada Corp.
