

MALLORY SONALERT PRODUCTS, INC

## **Mallory Sonalert Products, Inc REACH Declaration**

This is to certify that all Mallory products do not contain any substances of an up-to-date SVHC candidate list above a concentration of 0.1% by weight (w/w), and always guarantee to full compliance with REACH Regulation Requirement. When new substances published on the ECHA website, the new substances will be considered including a period of scientific and legal evaluation within 45 days of the date of publication.

REACH – Registration, Evaluation, Authorization and restriction of Chemicals, (EC) No 1907/2006 is a regulation from the European Community. It entered into force 2007-06-01. The main purpose is to protect human health and the environment.

To comply with the regulation, companies must identify and manage the risks linked to the substances called ‘Substances Very High Concern’ (SVHC) and committed to ensuring environmental compliance and sustainability globally and will continue to stay informed and comply of changes to the REACH directive. This list of substances will be regularly updated and published on the ECHA website: <https://europa.eu/web/guest/candidate-list-table> when more substances are identified as SVHC.

Sincerely,

*Dan Clark*
